Perhaps the most powerful idea in technology and learning is the

Biographical Sketch for Alan November

Alan November is an international leader in education technology. He began his career as an oceanography teacher and dorm counselor at an island reform school for boys in Boston Harbor. He has been director of an alternative high school, computer coordinator, technology consultant and university lecturer. He has helped schools, governments and industry leaders improve the quality of education through technology.

Audiences enjoy Alan's humor and wit as he pushes the boundaries of how to improve teaching and learning. His areas of expertise include planning across curriculum, staff development, new school design, community building and leadership development. He has delivered keynotes and workshops in all fifty states, across Canada and throughout the UK, Europe, Asia and Central America.

Alan was named one of the nation’s fifteen most influential thinkers of the decade by Technology and Learning Magazine. In 2001, he was listed one of eight educators to provide leadership into the future by the Eisenhower National Clearinghouse. In 2007 he was selected to speak at the Cisco Public Services Summit during the Nobel Prize Festivities in Stockholm, Sweden. His writing includes numerous articles and two best-selling books, Empowering Students with Technology and Web Literacy for Educators. Alan was co-founder of the Stanford Institute for Educational Leadership Through Technology and is most proud of being selected as one of the original five national Christa McAuliffe Educators.

ENHANCING EDUCATION THROUGH TECHNOLOGY

The College of Education focuses on improving the quality of leaders in the fields of education, health, human services, and communities of learning, including business and industry. Its mission includes serving as the base for research, development, professional experience and creative innovation; using academic disciplines and services within the university, as well as in collaboration with schools and colleges; and working cooperatively with governmental units, private agencies, and foundations.

The University of North Texas Educational Administration Program is one of the largest educational administration programs in the state. The curriculum challenges students to think creatively in organizing educational services and solving problems encountered in the real world. The program also supports both public and private educational sectors by providing advancement and application of knowledge through research and creative activities in the Dallas/Fort Worth area and beyond. Visit http://www.coe.unt.edu/teacher-education-and-administration to learn more about the program.
