Accelerated Executive On-Line
MASTER’S DEGREE in
Educational Psychology with a concentration in
RESEARCH AND EVALUATION

The master’s degree option in research and evaluation (R&E) prepares graduates to work with public or private organizations. For those employed as administrators by educational institutions (such as school districts, higher educational institutions, or non-profit organizations); or anyone desiring to become administrators, either in K-12 as evaluators, or in higher education as institutional researchers, the R&E master’s degree will help you understand how to design evaluations, collect data to determine the efficacy of programs or initiatives, and properly measure outcomes to assess important features. For those working in the development of research programs and implementing grant proposals, the master’s degree in R&E will position you to evaluate and provide information to policy makers and other stakeholders so that they can make important decisions about funding, continuation of programs, and/or changes that need to be made to improve educational efforts based on empirical data analysis and interpretation.

BENEFITS OF THIS PROGRAM:
- Earn a Master’s Degree in almost half the time. Begin in the summer and graduate the next summer!
- Flexibility of completing the entire program online.
- Receive funding during your first year of graduate study (upon eligibility).

COURSES INCLUDE (33 total hours):
- EPSY 5000: Principles of Educational Psychology
- EPSY 5210: Statistics for Educational Research
- EPSY 5050: Foundations of Research Methods
- EPSY 5350: Foundations of Psychoeducational Measurement
- EPSY 6010: Statistics for Educational Research
- EPSY 6120: Foundations of Program Evaluation
- EPSY 5240: Survey Research Methods in Education
- EPSY 5250: Grant Proposal Writing Skills
- EPSY 5990: Supervised Research or Program Evaluation
- And Two Electives in Research and Evaluation Methodology
