Texas Educator Certification Examination Program Transition

Beginning September 1, 2018, Pearson Education will be replacing Educational Testing Services (ETS) as the official proctor for the TExES, TExMaT, and TASC and TASC–ASL examinations. Candidates will view preparation materials, register to test, and access their exam scores through Pearson Education beginning September 1st.

Testing Before September 1, 2018

- Candidates who are testing before September 1, 2018, should visit www.texes-ets.org. Examinations must be scheduled by August 29th for candidates wishing to test by August 31st.
- Candidates currently scheduled to take an exam with ETS do not need to reschedule through Pearson because ETS has not scheduled any examinations after August 31, 2018.
- All ETS exam scores will be reported by September 4th, 2018 and will be available through a candidate’s ETS account until September 28, 2018. After September 28th, candidates will view all exam scores through their Pearson testing account.

Testing After September 1, 2018

- Registration and scheduling will open on the Pearson website (http://www.tx.nesinc.com) on September 1st, with testing to begin on September 4th.
- Most exams will be available year-round by appointment Monday through Saturday, excluding holidays. Certain exams will be available during specific weeks offered periodically. Exams will be administered at exam centers located in Texas and throughout the United States and internationally. More information about exam schedules and testing locations to come.
- Candidates who have previously tested with ETS, and need to either retake an exam or take additional exams, must create an account with Pearson beginning September 1st.

These testing changes do not affect Texas Education Agency Login (TEAL) accounts. Therefore, candidates do not need to change anything with their TEAL Educator accounts.

Candidates can read more about this transition and view FAQ on the Pearson website (http://www.tx.nesinc.com/). Candidates who need help in setting up a new testing account can come to the TExES Advising Office in Matthews Hall, Room 103 after September 1st.

The TExES Advising Office will also update the exam registration guide so students will be able to view step-by-step instructions on how to create a testing account and register for exams.

Information will be provided as it becomes available.
